# WHEN TO USE URGENT CARE

**Always dial 9-1-1 immediately if you have a serious, sudden, life-threatening emergency.**

A few examples of these conditions are severe dizziness, seizure or head trauma.

If your condition is not life-threatening, you should call your primary care provider (PCP). They are often able to see you the same day that you call or provide you with medical advice over the telephone.

You may be directed to one of Facey's two urgent care centers. They are open 365 days a year and staffed by Facey physicians who are trained to provide treatment for urgent medical needs. Facey Urgent Care offers a range of services, including suturing, x-ray, lab and casting broken bones.

## URGENT CARE IN SIMI VALLEY:
